

EU Mobile Internet daily bundles

To use internet on your phone in Republic of Ireland, Channel Islands or any of our Europe 1 Zone countries you can buy our EU Mobile Internet daily bundle. If you don't buy a bundle, we'll charge you £3.07 per MB consumed up to the EU data limit.

Remember, if you do purchase this bundle, your EU data limit will be removed. You will need to call us on 150 from an Orange handset if you want to be opted back in to the EU data limit.

You must be an Orange Pay Monthly Customer with a compatible phone or mobile broadband device. You must have roaming provisioned on your phone or mobile broadband device for us to be able to activate the bundle. Call Orange Customer Services on 150 from your Orange handset. Roaming is an Additional Service and subject to you passing a credit check.

The £3 bundle gives you 30 MB of data per day to roam on GPRS and 3G for browsing the internet. Once you have bought the bundle, it will automatically activate when you start using data within a country covered by this bundle. The bundle will stay on your account until you tell us to stop it by calling 150. Remember, you'll only be charged £3 on the days you use data whilst roaming abroad and your 30 MB of data will last until you reach your data limit or midnight on those days, whichever comes first. Unused data won't roll over to the next day.

You can only have one of our EU data bundles on your account at any one time. Once the bundle is cancelled, any unused data will be lost and no credit given.

The bundle will normally be ready to activate within 24 hours of your order. Until activation, you will be charged at the rates set out in your plan for data roaming. See orange.co.uk/abroad to check your plan rates

Each session of data roaming usage is rounded up to the nearest byte and once your bundle of 30 MB of data runs out, you will be charged £3.07 per MB consumed for any additional internet use from your phone or mobile broadband device in Republic of Ireland, Channel Islands or any of our Europe 1 Zone countries. If your service plan is inclusive of roaming data charges, the allowance under your bundle will be used first. The bundle does not include download charges for example, charges for downloading ringtones or games.

Charges incurred whilst roaming may be billed several months in arrears. The balance of the allowance shown on your monthly invoice may not therefore be accurate as certain charges for previous usage may not have been processed by Orange at that time.

Remember, mobile internet browsing is not to be used for other activities (e.g. using your phone handset as a modem (except where you have a tethering bundle), non-Orange internet based streaming services, voice or video over the internet, instant messaging, peer to peer file sharing).

Roaming services are subject to connection to foreign networks and cannot be guaranteed. Please see www.orange.co.uk/abroad for more information.
