TETHERING BUNDLES

If you're a new or existing Orange pay monthly customer on any Animal, iPhone or SIMO Plan with a compatible iPhone or Android phone and computer you can add a tethered data bundle to your account and use your phone as a modem.

You can choose from a 30 day bundle for £6 giving you 500MB of data, or a monthly bundle for £6 per month giving you 500MB a month; £12 per month giving you 1GB a month; or £30 per month giving you 3GB a month. All the data is for use at any time in the UK. You can't choose more than one bundle at the same time.

Monthly bundles will stay on your account until you ask us to remove them.

Any data use over and above any inclusive allowance will cost a daily flat rate of £1 per day. If you're on a plan that includes mobile internet and one of these tethering bundles and you use up your total data allowance for both services, you'll pay £1 a day if you use tethering and £1 a day if you use mobile internet. This is subject to a daily fair usage allowance of 25MB, and a monthly download limit of 500MB of tethering. Please note, should you reach your 500MB limit before the end of the monthly period, network protection controls may be applied to your service. This may result in a reduced speed of transmission and/or disconnection.

Tethering (whether as part of an inclusive allowance or not) is not to be used for other services such as non-Orange internet based streaming services, voice or video over the internet, instant messaging, peer to peer file sharing.

For details of Service Plan charges and for details of services not included see the Price Guide at www.orange.co.uk/mobileguide.
